JACKSON'S WHITE MIXED SPICE. For Picklins,

The Use of Cement Pipe for Sewers. The following veto was filed with City Clork Genry yesterday afternoon:
To the Honorable the Common Council of the City of Usica:
The following action of your honorable hedy Friday ovening, April 2, 1885, is herety returns
out my approval. (Here is given at length the resolution adapted by the Council providing for
ment sewer in Allany street.)

The sewerage of our city is a very important matter, both from a smittry, and financial standpoint.

Our City Surveyor, who is theroughly competent to judge, has recommended virthed a swere pipe as Our City Surveyor, who is therefore the great the chequest, safet and best. Since this question was cities unanimously testifying to the superiority thirty letters from surveyors and engineers of different cities unanimously testifying to the superiority of this pipe, and study that this now university of the cities unanimously testifying to the superiority of this pipe, and study that possible the context. Then why does the Council hists on putting down coment?

Then why does the Council hists on putting down coment?

Some Alderman say the people needloot for in-there is some force in that in limit—but are they the some particles into possible the people must content the council some force in the colling and house of the bills.

And are we to pay any intentions the wall that was disund into our cars has tall about the sower again in the colliars and house of pipe, and I claim ashpult accept the advice of its Surveyor as city should have a voice in the bean musters.

The only real argument that has been or can be made in favor of the coment pipe we are now using that it is much the is not forcible enough to health; locked in the real our call can it from a little of the proposed of their pockets in trying to in in aim argument from the intention. This is too expensive and dangerous a monopoly for this council the our material.

The output of the monopoly of their pockets in trying to in in aim argument of the intention. The output of materials and the content of their pockets in trying to in in aim argument of the intention. The output of materials are the content of materials.

At the State Fair at Lewiston, last Wednesday, a thief, who subsequently gave his residence as Houlton, stole a silver medal from the table containing the display of boots and shoes of M. G. Palmer, of Portland. Mr. Palmer collared the fellow, and searching him proved him to be the thief, and then bode him leave the grounds. The medal was awarded to Mr. Palmer at Bangor last year, by the New England Fair. A number of other thefts at the fair has been genorted, among which were 2,000 little brass horses which the Buckey Mowing Machine Company was giving away as advertisements.

The only genuine general smashup, that has occurred during the week of the Fair, says the Journal, was the collision of one of the horse caix with Nathaniel Rideout's team, in Auburn, Saturday nording. Mr Rideout was crossing the car track in a buckboard, with a high headed horse, when the our came along, and knocked the buckboard into kindling wood. The horse attached to Mr. Rideout's carriage was badly frightened, and in his efforts to break away and run down the street, got one of his hind legs caught over the whiffle tree, and under the from axle. A man with a broad axe had to chop the carriage to pieces before the horse could be extricated from the debris. The animal's hind leg came, very near being broken. Mr. Rideout was not hurt.

Of late I have not noticed any mention of our beautiful little village, or our enterprising citizens, in your paper. | So I take the liberty of calling your attention, and the attention of your many readers to the fact that we are here, contented, prosperous and happy. There have been four-fine dwelling houses built here this sammer, a large amount of regaining and one new store built. Of this store I wish to speak more particularly. It was built by Col. Ira D Gardner, on the site lafely occupied by the Gardner & Coburn store, (burned about eighteen months ago), and is a two-story wooden building, has a front of sixty feet on Main street and nine ty-four feet on Mech mic street. The lowcy-rour rest on meen mie street. The lowrooms and two offices. The front office is to be occupied by the Hon. John Gardner of the firm of Gardner & Coburn and the back office will be recupied by Col. Gard-ner. The front room is forty by fifty feet with two entrances from Main street, and has a glass front. In this room there are
